

**DEPARTMENT OF THE AIR FORCE**  
**AIR FORCE RECRUITING SERVICE (AETC)**

8 Mar 04

**MEMORANDUM FOR SQUADRON PERSONNEL**

**FROM:** 367 RCS/CC  
3990 E. Bijou St.  
Colorado Springs CO 80909-6806

**SUBJECT:** Participation in High Risk Activities

1. In accordance with AFI 91-202, AETC Supplement 1, The US Air Force Mishap Prevention Program, all supervisors will ensure that their people are briefed before they participate in any high-risk activity. This briefing will be accompanied by an AETC Form 410 completed by the member. Once complete, mail or fax the form to the Commander for review and approval prior to the event. The form will then be forwarded to the Squadron Safety Office for filing.

2. High risk activities are activities having a higher potential for personal injury due to the level of competition, speed, risk, or skills needed and requiring greater agility, stamina, and dexterity. Some examples of high-risk activities include, but are not limited to, civil aircraft flying, hang-gliding, sky-diving, parasailing, white-water rafting, motorcycle and auto racing, scuba diving, bungee-jumping, dirt bike riding, hunting, mountain climbing, rodeo activities, kayaking, and other exciting activities that can result in injury when not properly executed. When in doubt of whether or not the activity is considered high risk, the commander will make that determination.

3. The bottom line here is YOUR safety, and the possibility of you seriously injuring yourself and missing time from work. The Commander is responsible for this program and everything **MUST** be documented, so ensure the paperwork gets done and gets to us prior to any high-risk activity.

4. If you have any questions on this subject, feel free to contact my unit safety representatives. Have a safe day!

  
THOMAS Y. HEADEN, Lt Col, USAF  
Commander
